**To the Members of the Presidential Council
International Academy of Engineering**

Dear colleagues,

Currently, the International Academy of Engineering consists of 14 structures i.e. national engineering academies, departments and representative offices from Asia, America and Europe: Azerbaijan Academy of Engineering; Engineering Academy of Armenia; Engineering Academy of Georgia; Engineering Academy of the Kyrgyz Republic; Academy of Engineering of the Republic of Tajikistan; Engineering Academy of Ukraine; Engineering Federation of Uzbekistan; National Academy of Engineering in the Republic of Kazakhstan; Russian Academy of Engineering; IAE Representative Office in Peru; IAE Representative Office in Slovenia; IAE Representative Office in Taiwan; IAE Central European Representative Office; IAE Representative Office in the Republic of Belarus.

The key concept of the Academy at all stages of its development is based on strengthening the engineering potential of the countries in which all the academy members work in order to improve the spiritual, economic, environmental and social life of a human being. Members of the International Academy of Engineering do not discuss political situations in the world and solve any political issues.

We urge the leaders of all parties to this conflict: Russia, Ukraine, the USA, NATO and Europe to agree on a peaceful settlement.

President
International Academy of Engineering

Boris Vladimirovich GUSEV

To the Members of the Presidential Council International Academy of Engineering
