

5th International Symposium on Nanotechnology in Construction (NICOM-5)

Trump Tower, City of Chicago, Illinois, USA - May 24-26th 2015

Nanotechnology has demonstrated tremendous potential for improving construction material performance - many innovations facilitated by **NICOM** symposia. **NICOM-5** participants - engineers, scientists, and students

—

will have a special opportunity to connect to top investigators in the field. These global connections are likely to lead to new ideas, cutting-edge research and active collaborations.

Call for Papers: Submission of 250-word abstract: January 15, 2014

Contact: Konstantin Sobolev, NICOM-5 co-Chair

Department of Civil Engineering & Mechanics

University of Wisconsin-Milwaukee,

Milwaukee, WI 53201 USA

E-mail: sobolev@uwm.edu
