

1. The order “Engineering Glory” of the International Academy of Engineering

Орден
"Инженерная Слава"

┌ The order “Engineering Glory” was established by the resolution of Presidential Council of the International Academy of Engineering on March 21st, 2007

At the heart of the order “Engineering Glory” there is a distinctive five-pointed star with divergent beams, placed onto the rusticated pentacle decorated by precious stones and cut girdle in the interbeam space of the star. The beams of the star are rusticated in the imitation of “silver drops”. In the center of composition there is a medallion with the emblem of International and Russian Academies of Engineering rimmed with precious stones deposits. Beneath the lower beams of the star there is a red ribbon with the inscription “ENGINEERING GLORY”.

The whole medal is made of precious metals. The order’s height is 40 mm, width is 38 mm. By means of the claw and suspension ring the upper part of the pentacle is attached to a rectangular suspension brooch with a blue silk clouded ribbon of 19 mm width. On the reverse side there is a four-line inscription “INTERNATIONAL ACADEMY OF ENGINEERING” and “No. ____”.

2. The Gold medal of the International Academy of Engineering

ORDER OF THE PATRIOTIC WAR (1943-1991) - THE HIGHEST MILITARY AWARD OF THE USSR FOR COURAGE AND BRAVERY DURING THE GREAT PATRIOTIC WAR (1941-1945) AND IN THE POST-WAR PERIOD. IT WAS ESTABLISHED BY DECREE OF THE PRESIDENT OF THE USSR ON 8 SEPTEMBER 1943. THE MEDAL IS A GOLDEN STAR WITH A BLUE CENTER AND A WHITE 'W' IN THE CENTER. THE WORDS 'ИНЖЕНЕРНАЯ СЛАВА' (ENGINEERING GLORY) ARE INSCRIBED AROUND THE STAR. THE MEDAL IS ATTACHED TO A BLUE RIBBON WITH GOLD-EDGED ENDS.
