RAE and IAE President Gusev Boris took turns to make the opening remarks

President Gusev and Dr. Samuel Yin, first honorary president of the IAE, took turns to make their opening remarks. Dr. Yin paid special tribute to the RAE and IAE for the extraordinary contributions they have made to the advancement of world's engineering technology and sustainable development during the past thirty years, while giving his best wishes for a successful conference. He then kick-started the conference with a speech titled "New Trends in the Technological Development of Taiwan Construction Industry." In addition, Dr. Jenn-Chuan Chern, president of the Taiwan Chapter of the IAE (TCIAE) & CEO of Tang Prize Foundation, gave a talk on "Tang Prize, 2020 Laureates and COVID-19 Reflection." 18 invited essays and 82 essays were also presented in this conference.
