

**Dear readers!**

**The new issue of the Electronic Edition «Nanotechnologies in Construction: A Scientific Internet-Journal» 2018•Vol.10•no.5 has been released: <https://yadi.sk/i/Yc0SvMnL0u7KYw>**

**THE ISSUE:**

- The selection of production technology of polymer-bitumen binders as an innovative nanobinders used in asphaltic concrete pavemen.
- Wastewater treatment system based on nanomodified natural sorbents.
- Wuhan University of Technology is one of the leading Chinese universities.
- Structure of pores in solid porous bodies.
- Sixth International Symposium in Nanotechnology in Construction NICOM6 (Hong Kong, 2–5 December 2018).
- Investigation of properties of liquid ceramic thermal insulation materials.
- About the international Tang Prize.

- **Research of efficiency of natural and modified sorbents for purification of industrial**

**sewage from heavy metal ions.**

- **The paper contest dedicated to the 10th anniversary of the edition «Nanotechnologies**

**in Construction: A Scientific Internet-Journal» is going on. The contest results will be presented in November–December 2018 and published in the electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» 1/2019, on the website of edition and journal partners' Internet-sources.**

- and more.

**We invite leading scientists and experts to publish their materials.**

The main aim of the electronic edition is to provide information support for the creation and implementation of scientific innovative technologies (especially nanotechnological products) in the construction industry, housing and communal services as well as in adjacent areas which are closely related to construction (engineering industry, power systems etc).

The electronic edition “Nanotechnologies in Construction: A Scientific Internet-Journal” has been published since 2009 and its periodicity is 6 issues a year. The electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» has been included: **CA(pt)**, **former title - Chemical Abstracts**

(USA);

**DOAJ**

(Sweden);

**EBSCO Publishing**

(USA);

**Web of Science**

(USA);

**EZB**

(Germany);

**Ulrich's Periodicals Directory**

(USA) et al. Each paper is assigned UDC, DOI, HTML - code. The papers are published in English and Russian.

You can find all issues and requirements to the published materials on the official website ( [http://nanobuild.ru/en\\_EN/](http://nanobuild.ru/en_EN/) ).

Considering the experience of the editorial staff of Internet-Journal «Nanotechnologies in Construction» we are ready to create and develop jointly Internet-editions of organizations, associations and partnerships.

**Contact e-mail: [info@nanobuild.ru](mailto:info@nanobuild.ru)**

We hope for effective and mutual beneficial cooperation.

**The editors of the Internet-Journal «Nanotechnologies in Construction»**

*P.S. if you do not want to receive information about the issues of the journal – inform the editor*
